PLEASE CAREFULLY READ THE SEPARATE HEALTH AND SAFETY PRECAUTIONS BOOKLET INCLUDED WITH THIS PRODUCT BEFORE USING YOUR NINTENDO® HARDWARE SYSTEM, GAME PAK OR ACCESSORY. THIS BOOKLET CONTAINS IMPORTANT HEALTH AND SAFETY INFORMATION.

IMPORTANT SAFETY INFORMATION: READ THE FOLLOWING WARNINGS BEFORE YOU OR YOUR CHILD PLAY VIDEO GAMES

**WARNING - Repetitive Motion Injuries and Eyestrain**

Playing video games can make your muscles, joints, skin or eyes hurt after a few hours. Follow these instructions to avoid problems such as tendinitis, carpal tunnel syndrome, skin irritation or eyestrain:

- Avoid excessive play. It is recommended that parents monitor their children for appropriate play.
- Take a 10 to 15 minute break every hour, even if you don’t think you need it.
- If your hands, wrists or arms or eyes become tired or sore while playing, stop and rest them for several hours before playing again.
- If you continue to have sore hands, wrists or arms or eyes during or after play, stop playing and see a doctor.

**WARNING - Seizures**

- Some people (about 1 in 4000) may have seizures or blackouts triggered by light flashes or patterns, such as while watching TV or playing video games, even if they have never had a seizure before.
- Anyone who has had a seizure, loss of awareness, or other symptom linked to an epileptic condition should consult a doctor before playing a video game.
- Parents should watch when their children play video games. Stop playing and consult a doctor if you or your child have any of the following symptoms:
  - Convulsions
  - Eye or muscle twitching
  - Altered vision
  - Involuntary movements
  - Loss of awareness
  - Discorition

To reduce the likelihood of a seizure when playing video games:
1. Sit or stand as far from the screen as possible.
2. Play video games on the smallest available television screen.
3. Do not play if you are tired or need sleep.
4. Play in a well-lit room.
5. Take a 10 to 15 minute break every hour.

**WARNING - Battery Leakage**

Leakage of battery acid can cause personal injury as well as damage to your Game Boy. If battery leakage occurs, thoroughly wash the affected skin and clothes. Keep battery acid away from your eyes and mouth. Leaking batteries may make popping sounds.

To avoid battery leakage:
- Do not mix used and new batteries (replace all batteries at the same time).
- Do not mix alkaline and carbon zinc batteries.
- Do not mix different brands of batteries.
- Do not use nickel cadmium batteries.
- Do not leave used batteries in the Game Boy. When the batteries are losing their charge, the power light may become dim, the game sounds may become weak, or the display screen may be blank. When this happens, promptly replace all used batteries with new batteries.
- Do not leave batteries in the Game Boy or accessory for long periods of non-use.
- Do not leave the power switch on after the batteries have lost their charge. When you finish using the Game Boy, always slide the power switch OFF.
- Do not recharge the batteries.
- Do not put the batteries in backwards. Make sure that the positive (+) and negative (-) ends are facing in the correct directions. Insert the negative end first. When removing batteries, remove the positive end first.
- Do not dispose of batteries in a fire.
GETTING STARTED

1. Switch the Nintendo® Game Boy® Advance system OFF. Never insert or remove a Game Pak while the Game Boy® Advance is ON.

THE STORY

Professor Pac is very excited to try out his new invention tomorrow, the Pac-Finder! The Pac-Finder is a huge machine that can locate any resident of Pac-Land in all of Pac-World, and instantly transport them to the Pac-Finder. Late at night, Professor Pac goes to sleep.

Pac-Man wakes up early in the morning, unable to sleep any longer because he's so excited to see the Pac-Finder activated for the first time. Something seems odd… Pac-Land seems strangely quiet. All of the Pac-Land residents have disappeared!

Pac-Man finds a note scribbled in bad handwriting on the door to his house:

Dear Pac-Man,
We have taken all the residents of Pac-Land and you'll never see them again!
Sincerely,
Blinky, Pinky (XOXO), Inky, & Clyde

It's time for me to give the Pac-Finder a try, and rescue my friends!
PLAYING THE GAME

THE GOAL
PAC-MAN PINBALL™ Advance allows the player to approach pinball how they desire. You may try to rescue the 8 kidnapped residents of Pac-Land, or play purely to achieve your highest score possible.

GAME OVER
The game ends when Pac-Man loses all of his lives. If all 8 residents are rescued, the game will start over but you will retain your high score and the number of remaining lives.

THE HUD
1. Balls/Lives remaining
2. Pac-Dots collected/current score
3. Digital display (appears when special events occur)
4. Pac-Man Spinner meter

Key              5000 Level 8 – Professor Pac

HOW TO COMPLETE A LEVEL
To complete a level, Pac-Man must activate the Pac-Pad.

1. Knock down the three targets. Pac-Man only has 30 seconds to complete step 2 before the targets reset.
2. While the targets are down, open the door to Professor Pac’s house by making the Pac-Man Spinner rotate enough times to fill up the meter. The targets will remain down if the door is opened within the time limit. Pac-Man now only has 30 seconds to complete step 3.
3. Knock Pac-Man into Professor Pac’s house. The kidnapped resident will appear, and the resident will begin walking toward the door to Professor Pac’s house while being chased by a Ghost. Ms. Pac-Man will appear and help Pac-Man chase down the Ghost (multiball).
4. A Power Pellet should appear. Munch the Power Pellet then gobble the Ghost before it catches up with the running resident.

If Pac-Man fails to rescue the resident after this sequence of events, the targets are reset and the sequence of events must be reproduced again.
